This brief introduction will describe how you can access the materials that are needed for your pre-work tutorial.

Click the Begin button to start...
After you log into tutorials.babson.edu, you will have access to the tutorials and waivers in which you are enrolled. Your enrollment has been determined by your admissions advisors. If you would like to change your enrollment, contact the Babson College MBA Admissions office.

If you need further assistance, at any point you can click on the Support tab to see contact information, important system information and a note from Babson College MBA Admissions.
Upon entering a tutorial site you will see the latest announcements.
Within the General Info section you will find the System Requirements Checklist as well as Contact Information. The checklist includes all of the software and hardware you will need to participate in the tutorial as well as a link to a quick system check.

The Contact Information lists any contacts you may need for this particular tutorial.
The Syllabus section of your tutorial is where all of your content and study materials will be found.

Each syllabus is set up to include a brief introduction to the tutorial and a number of sessions. Some of the tutorials will include a reading or other informative content specific to the subject matter that you will be asked to review before beginning.

Each session will include main learning objectives. These are the key points you will be required to master upon completion of the session.

Within each session you will find a variety of interactive exercises that can include checkpoint quizzes, hands-on exercises, and audio enhanced key topics.

Throughout the tutorial, you may have specific questions regarding the session content. You may use the Help Forum for these types of questions.
The Help Forum area is a discussion board available to you for questions related to the material in your particular tutorial.

As you can see, other students may have the same question you have – therefore, before posting, scroll through the list of threads and see if your question has already been asked and answered. You can even search for your question by using a keyword.

If you don’t find your question in the list, post a new Thread. Simply give it a subject, add your question, and hit submit. After posting a question within this forum you will receive a response within 48 hours.

After you have completed all of the sessions and you are comfortable with the material, you may click on the Final Exam button on the left-hand side.
The Final Exam button includes the instructions as well as the link to the final exam. Each exam will have specific instructions. It is very important that you read through these instructions carefully before clicking on the Final Exam link.
Once again, welcome to the Babson Fast Track MBA program and good luck. If you need any technical assistance or have a technical question, remember this email address: support@babson.edu. The Babson College Service Center will be able to assist you.

If you have any other questions, please feel free to contact your Admissions Advisor.

This concludes this introduction for the pre-work tutorial.
